Digital Marketing Solutions
Variable Data Marketing Opportunities

Whether you are shopping for banners, booklets, brochures, business cards, calendars, catalogs, door hangers, envelopes, greeting cards, letterhead, magazines, postcards, posters, presentation folders, one-to-one marketing literature, table tents, or variable data printing, we do it all – including graphic design and mailing services. As a full service commercial printing company, we realize that no two projects are ever the same, so we generate custom quotes for all pricing requests – we're ready when you are. **Call Starburst for your next project.**

Print On-Demand: Choose Digital Print Technology

Digital print technology is ideal for short runs and short shelf-life items, tight deadlines and tight budgets. You only pay for what you order; you only order what you need.

And you won't compromise on quality. We support most file types and work with you or your designer to ensure a smooth project. We invest in the latest technology – Heidelberg and HP six- and seven-color presses, and large format printers – run by experienced craftspeople who understand the details. People who go the extra mile to ensure the highest quality print production, and your satisfaction.

Digital print projects may include:
Postcards
Invitations
Sell Sheets
Brochures
POP Displays
Direct Mailings

High Volume, High End: Choose Offset Printing

For high-speed, high-volume printing from one- to four-color, Starburst offers traditional commercial sheet-fed offset and letterpress printing. Your project calls for sharp, clean images and crisp traps and rules on any of a wide variety of stock finishes and weights; Starburst delivers exceptional results, on time and on budget.

It begins at pre-press, where your project is handled with detailed attention to ensure its accurate set-up. We can accept most file types and will work with you or your designer to achieve the highest quality product and meet your unique needs. We offer several options for proofing from digital matchprinting to e-proofing. We work with you at every stage to ensure that your project moves along swiftly and flawlessly.

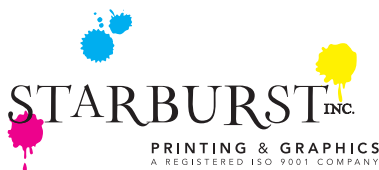

Offset print projects may include:
Stationery Packages
Brochures
Catalogs
Annual Reports
Sales Kits

Bindery and Finishing, Fulfillment and Mailing

When your project is more than just a print job, we have the bindery and finishing services you need. Enhance and customize your printed pieces with our full array of bindery services to include: scoring, folding, collating and stitching, perfect binding, wire-o binding, die-cutting, embossing, lamination and UV-coating – our skilled printers will meet your exact needs.

We can provide distribution, as well, with fulfillment and mailing services. For kitting, collation, pick/pack/ship – even storage – tell us what you need and we'll manage it.

Meeting and exceeding customer expectations is our goal on every project, every day. **Call Starburst, every time.**

Dynamic Marketing Technology... Dynamite Marketing Results For Your Business

Variable data print technology makes one-to-one marketing an affordable reality. It's economical, personal, and powerful.

Advances in digital printing make it efficient and cost-effective to customize your communication pieces and tailor your message to specific customers. Utilizing variable data and graphics allows you to communicate to your customers on a personal level; you can tailor information to speak directly to each individual recipient. And our advanced printing technologies make the process seamless and fast.

Variable data projects may include:

**Invitations
Benefit Statements
Patient Follow-ups
Targeted Product Mailings**

At Starburst Printing & Graphics, we believe that when customer service comes first, a quality experience and a first-rate printed product will naturally follow.

CALL STARBURST TODAY at 1-800-244-8396.

CYAN-MAGENTA-YELLOW-BLACK, and always GREEN

Investing in cleaner, greener, and more efficient technologies benefits our customers, helps the environment, and advances our business priority of implementing future technologies.

At Starburst we:

- > Reduce waste and overages with print on demand – printing only what you need and no excess
- > Combine recycled paper with digital printing to achieve sustainability and savings
- > Ensure that our paper suppliers are FSC-certified (Forest Stewardship Council, an independent, international, non governmental organization established to promote the responsible management of the world's forests)
- > Champion digital technologies, which contain no hazardous materials and produce little to no VOCs (volatile organic compounds)
- > Utilize only soy-based offset inks and high quality recycled papers
- > Maintain constant waste-management and recycling practices throughout our operation
- > Chemistry free plates utilized for offset printing, eliminating chemical usage and disposal
- > Installed a 60kW roof top solar array which will reduce are carbon foot print by 97,500 of Co2 annually.

Starburst Printing & Graphics is ISO-9001 registered, demonstrating our continuing commitment to quality in each and every phase of our business.
